

8-HEAD SPINDLE **CAPPING MACHINE**

AUTOMATIC SORTER AND
CAP FEEDING
FOR ROUND BOTTLES

The 8-head spindle capping machine, is engineered for versatile capping of flat, pump, spray and trigger caps. It offers fast and effortless bottle and cap changeovers, minimizing downtime and maximizing productivity. Its user-friendly design allows quick adjustments to meet your production needs. Featuring an integrated sorter and cap feeder for round-section caps, it delivers fully automatic, high-speed, and precise capping.

RADAN
INDUSTRIAL GROUP

Other specifications:

Bottle and cap changeover without the need for part replacement
 Linear mechanism enabling continuous capping without stoppage
 Equipped with 8 polyurethane capping heads with adjustable rotation to prevent cap damage
 Side anti-wear belt for bottle holding with adjustable height and width to accommodate various bottle sizes
 Automatic sorter and cap feeder for caps without hoses
 No part replacement required for different cap types
 Adjustable height to fit various bottle sizes
 Includes a 3-meter conveyor belt

Options:

Magnetic sorter for metal caps (jars)
 GMP-compliant enclosure

In industries:

Suitable for detergent, chemical, pharmaceutical, cosmetic & personal care, food and beverage containers

Feature	Specifications
capping speed	4,500 – 6,000 caps per hour
bottle width	30 - 100 mm
bottle height	80 - 300 mm
cap type	flat, pump, trigger caps and jars
bottle material	plastic
frame and covering	SST 316
power supply	AC380V/110V 3PH 50/60HZ
machine dimensions	300 cm (L) × 80 cm (W) × 220 cm (H)
